## EXPERIENCE

### Team Lead of Mentoring project

#### Tinkoff Bank

📅 Dec 2022 – Ongoing

📍 Moscow

- Successfully built MVP version of project in projected time with high marks from business and users
- First pilot project for company consisting only of mentees, who then made it's way into the staff as there full time job
- Mentored two backend mentee developer and still helping previous team with development tasks
- Team contains 6 employees: 2 backend developer, 1 frontend developer, 1 QA engeneer, 1 UI disigner, 1 analytic
- Project tech stack: Dotnet, Angular, Postgres, DDD, CQRS, Microservices (Docker and Kuber), Gitlab CI/CD

### Team Lead of Performance Review project

#### Tinkoff Bank

📅 Apr 2021 – Dec 2022

📍 Moscow

- Took a sinking project and made it stand out
- Assembled a team of people with the best hard and soft skills
- Mentored one backend mentee developer and helped him made his way into the staff on this project
- Put a plan on a table on how we will success from project's state as it comes to me to one year after and coordinated it with the business
- Team contains 7 employees: 3 backend developer, 1 frontend developer, 1 QA engeneer, 1 UI disigner, 1 analytic
- Project tech stack (3 services): Dotnet, Angular, Postgres, Microservices (Docker and Kuber), Gitlab CI/CD, CRUD with a little DDD

### Senior Developer on Organization Structure project

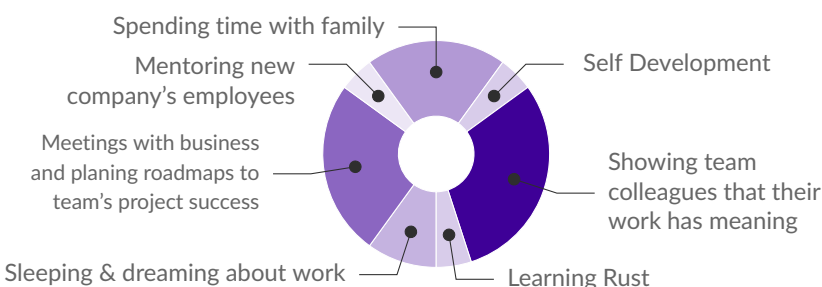

#### Tinkoff Bank

📅 Apr 2020 – Apr 2021

📍 Moscow

- Developed the backend and frontend sides and launched in production a small service from ground up by myself (as a help for different team)
- Actively debated with business and analytics about the best way of doing things and helping choose the right one
- Took only the difficult tasks and provided the best solution
- Project tech stack (1 service): Dotnet, Angular, Postgres, Microservices

## A DAY OF MY LIFE

## LIFE PHILOSOPHY

*"Do what you can, with what you have, where you are."*

## MOST PROUD OF

### Courage I had

to take a sinking project and to make it stand out

### Persistence & Loyalty

I choose companies very careful and show my loyalty throughout our col-laborations

### Projects Growth

from the business ideas to working valuable products

### Inspiring leader for teams

Successfully raised and led two project teams

## STRENGTHS

Hard-working (18/24)

Persuasive

Motivator & Leader

Shaper

Product Management & Team Leading

Micro Services & Architecture

Mentoring

OOP/FP

Rust

C#

Java

SQL

Kafka

Rabbit

JavaScript

TypeScript

Dotnet/Aspnet

RESTful API

DDD

CQRS

Patterns

## LANGUAGES

Russian (Native)

English (B1)

## EDUCATION

Degree in Computer Science

International College of Business and Design at the Moscow Technical University of Communications and Informatics

📅 Sept 2006 – June 2010 📍 Moscow, Russia

## PAST EXPERIENCE

---

### Middle Developer on Performance Review project

#### Tinkoff Bank

📅 Apr 2019 – Apr 2020

📍 Moscow

- Helped team to archive it's business goals
  - Participated in developing in-house company's task tracker and feedback systems
  - Leveled up my developing skills with company's training courses and valuable help from colleagues
  - Project tech stack (2 services): Dotnet, Angular, Postgres, Microservices (Docker and Kuber), Teamcity, Custom CI/CD tooling
- 

### Senior Developer on GIS projects

#### Neotech

📅 Dec 2013 – Mar 2019

📍 Moscow

- Certified developer of General Electric Smallworld GIS
  - Participated in many different projects for different customers around Russia and some CIS countries, such as MTS, MGTS, TAT Telecom, etc
  - Reverse engineered client side project due to lack of source code because General Electric don't want to share it with it's customers
  - Maintained close contacts with customers above about developing process and business ideas
  - Participated in General Electric Smallworld Developer's conferences, included one in the UK, Italy and Netherlands
  - Developed extensions for Smallworld GIS on internal Magic programming language and internal Spatial DB technology
  - Developed extensions for client side (including frontend) written on Java, JSP, JavaScript, JQuery, Mustache
- 

### Middle Developer

#### CINIMEX

📅 Nov 2012 – Jan 2013

📍 Moscow

- Worked with IBM WebSphere and Message Broker on ESQL language
- 

### Middle Developer on Railway Automation project

#### AISA IT-Service

📅 Nov 2010 – May 2012

📍 Moscow

- Project's goal was to automate how machinists interacts with the end route routine through touch information booth and digital forms
- Developed XFDL forms in IBM Lotus Forms
- Developed web services with Java EE using Java, JSP, WSDL, SOAP technologies.
- Created and optimized SQL queries for IBM Db2. Developed stored procedures with PL/SQL.
- Optimized client side project with Java and ExtJS

## CERTIFICATIONS

---

### General Electric Certified Developer
